## Senior Odoo Developer

Email: abhorya@gmail.com | Phone: 01000059085

Location: Cairo, Egypt

LinkedIn: [Sabry Mohamed Youssef](#) | YouTube: [OdoomedSabry](#)

GitHub: [Sabry Youssef](#)

### Summary

Experienced Senior Odoo Developer with deep expertise in the Odoo framework, custom module development, and API integrations. Proficient in aligning ERP solutions with complex business processes across industries, including construction, healthcare, and e-commerce. Skilled in server deployment, cloud hosting, and performance tuning, with a proven ability to lead development teams and deliver high-quality solutions.

### Work Experience

#### Senior Odoo Developer

Odoomed (Full-time, On-Site) | Present

**Odoo Framework Expertise:** Designed and implemented customized modules leveraging in-depth knowledge of Odoo's architecture, workflows, and data models.

**Python Programming:** Developed advanced business logic and optimized Odoo operations using Python.

**PostgreSQL Expertise:** Designed efficient database schemas, optimized queries, and conducted performance tuning for high-traffic systems.

**Customization and Module Development:** Delivered tailored modules for CRM, Sales, Inventory, and HR to address specific client requirements.

**Front-End Development:** Enhanced user interfaces using Odoo web client framework, HTML, CSS, and JavaScript.

**API Integration:** Built and integrated REST and XML-RPC APIs for third-party services, including payment gateways and logistics systems.

**Cloud Hosting and Server Management:** Deployed Odoo solutions on DigitalOcean and optimized Linux servers for stability and scalability.

**Business Process Alignment:** Worked closely with clients to understand industry-specific needs and customize Odoo functionalities accordingly.

#### Odoo Developer Intern

Vendor Odoo Services (Internship)

Gained hands-on experience in developing custom Odoo modules, troubleshooting, and optimizing workflows.

Assisted in setting up and maintaining cloud-hosted Odoo instances using DigitalOcean Droplets and AWS.

#### Teaching Assistant

Softech, New Cairo

Conducted training sessions on Python programming and Linux server management with an emphasis on practical ERP applications.

### Skills

**Odoo Framework:** Deep understanding of Odoo modules, ORM, workflows, and custom reporting.

**Customization:** Extensive experience in developing and tailoring custom modules.

**API Development:** Proficient in integrating REST and XML-RPC APIs with Odoo ERP.

**PostgreSQL:** Advanced skills in database design, indexing, and query optimization.

**Front-End:** Proficient in web client development using HTML, CSS, JavaScript, and XML.

**Cloud Hosting:** Expert in deploying and managing Odoo on DigitalOcean with automated backups.

**Linux Administration:** Skilled in Ubuntu, CentOS, Nginx, PostgreSQL tuning, and server security.

**Version Control:** Proficient in Git for code collaboration and versioning.

### Education

Bachelor of Science | Cairo University

### Certifications

- Advanced Odoo Development Training
- Linux Server Administration Fundamentals
- Bachelor's Degree in Science

### Professional Development

- Regular participant in Odoo Experience events and active contributor to the Odoo community.
- Ongoing training in advanced Odoo development and cloud hosting best practices.

### Additional Information

- Languages: English
- Interests: Cloud hosting, AI in ERP systems, reading

Designed In ODOO EDUCATIONAL

"As a dedicated Odoo developer, my mission is to enhance business efficiency through innovative solutions. I specialize in creating impactful products designed for small to medium-sized companies, helping them optimize performance and overcome challenges."
